The Henrico County Master Gardeners providing this service have been trained by the Agriculture and Natural Resources extension agents of the Henrico County Office of Virginia Cooperative Extension to make available the information listed in this brochure to homeowners.

SMART Scapes Planning to Prevent Landscape Problems!

Henrico Extension Office

(804) 501-5160

Virginia Cooperative Extension is a partnership of Virginia Tech, Virginia State University, the U.S. Department of Agriculture, and local governments. Its programs and employment are open to all, regardless of age, color, disability, sex (including pregnancy), gender, gender identity, gender expression, national origin, political affiliation, race, religion, sexual orientation, genetic information, military status, or any other basis protected by law.

If you are a person with a disability and desire assistance or accommodation, please notify the Henrico Extension Office at (804) 501-5160/TDD* during business hours of 8:00 a.m. and 4:30 p.m. *TDD number is (800) 828-1120.

Do you have questions about your home landscape?

Enroll in Smart Scapes today!

You can learn about maintaining and enhancing your landscape through proper planning. The program includes a site visit by trained Master Gardener volunteers. Master Gardener teams educate homeowners on best management practices for a beautiful, healthy and sustainable landscape. This includes a focus on conservation practices to restore and protect our local watersheds, reducing the use of water, fertilizer, herbicides, and pesticides.

The volunteers will evaluate and answer site specific questions regarding your property, such as:

- Why are the plants in my yard not thriving?
- What plants will grow well in my area of Henrico County?
- What plants are on my property and how do I take care of them?
- How can I improve the sustainability of my landscape?
- How can I create habitat for beneficial wildlife like birds & bees?

Please note that turf grasses *will not* be addressed in this program. Please visit <https://ext.vt.edu> for turf publications.

When you enroll in the Smart Scapes Program, a volunteer team of Master Gardeners will:

- Help you identify landscape problems
- Show you how to maintain healthy trees and plantings.
- Advise you on installation of new trees and plantings.

You will learn:

- How to assess your home landscape for problems.
- How to take a soil test.
- Proper planting, pruning, and mulching techniques.
- How to select the right plant for the right spot.

Schedule your personal, at-home consultation today and start learning how to plan now to prevent landscape problems in the future! It's the SMART thing to do and enrollment is easy!

Program runs April 1 through September 30.

The SMART Scapes program is only available to residents of Henrico County.

How do you plan to prevent landscape problems?

*Step 1: **S**oil Test

*Step 2: **M**atch Plants to the Site

*Step 3: **A**rrange Plants
